

## FILLING THE JAILS.

A Number of Prisoners Lodged Behind Prison Bars

## FOR CRIMES OF GRAVE CHARACTER.

A Brawler, a Bigamist and a Man Charged With a Felonious Assault on a Woman Added to the List Saturday—William Groves Convicted of Swindling—Embley Gets a Pretty Severe Sentence.

Matters in criminal circles were pretty lively Saturday, and the population of the county jail received a considerable accession, partly through the operation of the criminal court and partly in preparation for its next term. The ball was started rolling in the forenoon, when the case of William T. Embley, convicted of renting a house to be used as a house of ill fame, was called. Embley was brought into court at the noon hour, the motion for a new trial was argued by counsel and submitted, and Judge Jordan overruled it. He then in a few words addressed to Embley sentenced him to pay a fine of \$100 and be confined in the county jail for six months.

A demand for a stay of execution was at once made, but on reflection that under the ruling of the court the prisoner would have to remain in jail anyhow, this demand was withdrawn, but notice of an appeal to the criminal court was filed. If the appeal is not allowed, then the time which he spends in jail will be credited on his sentence.

In the same court Jacob Wilhelm, who was indicted on two counts for selling liquor on Sunday, plead guilty and was fined \$20 and costs in each case.

Frederick J. Wingert, esq., was admitted to practice at the bar.

## ANOTHER GIRL APPEARS

To Look for Young, Who Was Sent to Jail Saturday.

Saturday Frank Young, a motorman on the electric railway, was arrested on a charge of two felonious assaults on Bezie Wagner, aged 14, who came here from Preston county to work at Young's house. The girl told a pretty straight story, which was somewhat corroborated by other testimony. He admitted, as did his wife, that he had "tussled" with the girl, but denied any criminal intent. When Policeman Minkemeyer asked Young about the girl's complaint, first made to that officer, his only response was, "What the hell have you got to do with it?" Squire Gillespie committed Young to jail in default of \$500 bail for his appearance at the criminal court to answer to the action of the grand jury.

Yesterday a girl came here from Niagara Falls, N. Y., looking for Young. She was astonished to find that he was married and more so to know he was in jail on such a charge. She said she had been corresponding with Young and he had written to her to come to Wheeling. Where she knew him or the extent of their acquaintance could not be ascertained.

## GUILTY OF BIGAMY.

W. P. Taylor Practically Confesses to the Charge.

W. Platoff Taylor and William P. Taylor are the two ways in which a gentleman spells his name who was sent to jail Saturday by Squire Gillespie in default of bail, the charge being bigamy. The complainant was Mrs. Taylor No. 1, nee Mary A. Bayless, who alleged in her affidavit that her husband had married Ada Gattrell, of Belmont county, Ohio, last March, when already legally married to the complainant.

When arraigned before the justice Taylor explained that he had married one woman with his name William and the other as Platoff Taylor. He admitted, however, that he was the man who married both, and as this was enough evidence and he could not furnish bail, he was sent to jail to await the action of the grand jury at the next term of Judge Jordan's court.

## GROVES GUILTY.

The Verdict Rendered in the Criminal Court Saturday at Midnight.

The jury in the case of the state against William Groves, late superintendent of the Wheeling office of the Metropolitan Life Insurance Company, gave its verdict Saturday at midnight. The jury was out about one hour, and finally agreed on a verdict of guilty. Counsel for the defendant gave notice that a motion would be made for a new trial; this will come up this week. The trial occupied the entire day in the criminal court and the evidence was not concluded until 6 o'clock. A night session of court was then held, when arguments were made by counsel, lasting until nearly 11 p. m., when the jury retired and finally gave its verdict at midnight.

## Edward Cotts in Jail.

Saturday Edward Cotts was committed to jail by Squire Gillespie in default of bail for the criminal court, for breaking open and robbing four freight cars of merchandise on the Pan Handle track just at the north end of town early Friday morning. The cars were forced open and the box lids broken with a small bar of iron, which was found in the boat house where Cotts lived. The prisoner is a boy of fifteen. He was found by Detective Love, of the railroad company, wearing one of the caps which were a part of the property stolen. Shoes, glassware and canned goods were also stolen.

STATED by H. B. Cochran, druggist, Lancaster, Pa. Have guaranteed over 500 bottles of Burdock Blood Bitters for dyspepsia, sour stomach, bilious attacks, liver and kidney trouble.

We have noticed a great lack of enterprise among the bakeries of the city. They seem to be a peculiar class of non-progressive. We are pleased to note a great exception with the Wheeling Bakery, which is the most enterprising, wideawake house in the city. They have given the public the most novel products we ever saw. We make special mention of their "Sweet Home" and "Electric" breads as the finest and biggest loaves ever offered in this city. The immense demand for these justly popular favorites has prompted the company to put the special name of this bread on the seal which is attached to each loaf. If you are fond of good bread, just notice that the loaves of bread you buy have the names Sweet Home or Electric on the seal, and we assure you you will get the best that money can buy.

BURDOCK kills roaches, bed bugs, etc., the instant they come near it. 25 cts.

## STONE CUTTERS' STRIKE.

A Card from the Union Explaining the Situation.

To the Editor of the Intelligence.  
SIR:—Seeing different statements in the press about the strike we are now engaged in, and there being no official statement from our branch, we deem it advisable to place ourselves right before the public, as he who runs may read that most of the statements published come from the other side. There is an agreement between the Builders' Association and union stone cutters that they shall work together for mutual benefit, the builders' association to hire none but union stone cutters and the union stone cutters to work for the builders' association contractors only. Hallock Bros. have violated the agreement at different times, and the present case is only the last feather that broke the camel's back. The hiring of these men is a flagrant violation of the agreement entered into with the builders' association, they agreeing in hiring union stone cutters to be governed by our rules, which require that plain moulded and carved stone work must be done by union stone cutters. When asked to adjust this matter Mr. Hallock told the delegate to attend to his own business and for the society to do their worst. His representative also used abusive language, resorting to the childish method of calling names and trying to ring in a general bluff. The builders' association refused to take any action to bring Hallock Bros. to terms, hence the strike. There is not a union stone cutter in the city cutting stone, all statements to the contrary notwithstanding.

WHEELING BRANCH GENERAL UNION STONE CUTTERS.  
Wheeling, July 22.

## Hallock Bros.' Reply.

To the Editor of the Intelligence.

SIR:—We do not propose to make a statement that "he who runs may read," but we desire that part of the public who are interested in this controversy to stand still and consider our side of the controversy. Until about one year since we have managed to live and do work as a non-union company. At that time we deemed it advisable, in the interest of harmony between ourselves and the laboring public, of which we are a part, to agree to the demands of the trades unions within our call as general contractors. In this we agree to employ union labor, and we have ever done so since our signature was placed to that contract. Tried and true non-union men who had been in our employ for a long time we required to join both stonecutters' and stonemasons' unions, as the requirement demanded. Previous to this trouble there was but one complaint made to us by the stonecutters, and that was that we bought our stone from parts foreign to their jurisdiction for use at the city water works, which was contrary to the agreement between the Ohio County Stone Contractors' association and the cutters' union. We proved to their satisfaction that the cutting was arranged for and mostly done before we joined the Ohio County Stone Contractors' association.

In regard to the carvers that came here to do the work on the Chapline street German church, we would say we had no idea that it was conflicting with any agreement we had signed with the cutters' union. There has not been a first class piece of carving done in this town but what was done by men foreign to Wheeling. The Stifel block, St. Matthews parsonage and the Stone & Thomas building were all done by men brought in from other towns. Farther than that, we claim a carver is no more a stone cutter than an artist is a house painter.

The truth of the whole business is, the Austrian cutters whom we have employed are the great bone of contention. The Austrians are skilled, rapid and willing workmen, and the so-called American (?) cutter is the opposite. They cannot strike because we employ what they call "d—d Dagoes," because these men belong to their union, as we have seen to it that they join as soon as they enter our employ. There are good men and good workmen in the union who are not foreign born, but the average of the Wheeling cutters' union is decidedly inferior; in fact, they are better scabblers than cutters.

## HALLOCK BROS.

## MARTIN'S FERRY.

Haps and Mishaps in the Thriving City Across the River.

S. B. Armstrong, James McCaffrey, Watt Cline and William Arbough have returned from the glassworkers convention at Marion, Ind., all highly pleased with their entertainment. The delegates, about 250 in number, were driven all around Marion and vicinity and banqueted at a resort forty miles from there, all by the city, and before leaving each delegate was presented with a souvenir, "Marion, Indiana, Illustrated."

Yesterday Mr. and Mrs. N. S. Watson, of Newland's Addition, entertained Dr. and Mrs. R. D. Wilkin, of Harrisville, Mr. and Mrs. L. W. Gray, of Steubenville, Bert Wilkin, of Wheeling, and Mrs. Joshua Watson, of Atlantic City, Iowa, all relatives. The first named two couples leave on Wednesday for the World's Fair.

Professor Lee, the barber and long distance runner, thinks he can run from Harrisville to Martin's Ferry in the time made by the firemen on Friday night and says he will bet \$100 to \$200 that he can do it. Lee will not have any trouble in having his money covered if he means business.

William Tweedy and several of his friends are camped at Zoar, and are having fine sport and good success. Friday last they caught thirty-four pounds of catfish and nineteen turtles. The party will return about the first of August.

Two or three Martin's Ferry wheelmen have rode to Harrisville in less than fifty minutes, considerably quicker than the relay races made the run.

Henry Romick, who was badly used up by his horse running of recently, will be a cripple for life.

Misses Laura Swartz, Ellen Gray and Eleanor Hanna leave to-morrow for the World's Fair.

James O'Donnell was hit in the eye by a ball while playing at Mt. Pleasant on Saturday.

Miss Jennie McGraw came in over the C. & W. on Saturday from the World's Fair.

William Jones and Fred Morgan returned yesterday from the World's Fair.

J. B. Montgomery will break camp at Tiltonville in a few days and go to the fair.

Health Officer Hildebrand will make a tour of the city, commencing to-day.

Miss Gretta Schofield has returned from an extended visit in Steubenville.

Mr. and Mrs. Lafayette Fowler buried a little child at Riverview yesterday.

Miss Rosa Wetherald, of Findlay, is visiting friends and relatives here.

The Vigilant Horse Company will go to Marietta with the Independent.

The Myrtle fishing club is catching lots of fish and having a good time up

the river. In a game of ball on Saturday they defeated the Warrenton club by a score of 16 to 2.

Mr. and Mrs. August Theilacker returned from Chicago yesterday.

Thomas Schofield returned yesterday from a week's visit at Findlay.

Robt. Blackford and Harry Jones are home from the big fair.

Spence, Bagge & Co.'s stove foundry will resume to-day.

Miss Chel Miller is visiting relatives at Wellsburg.

John McKim, of Cleveland, is in town.

I prescribe Simmons Liver Regulator, and it deserves all the praise it receives.—Dr. D. W. Atkinson, Siloam, Arkansas.

## BELLFAIRE.

All Sorts of Local News and Gossip from the Glass City.

Rodefer Bros.' glass furnace and the Bellaire bottle company's furnace, were operated with less fuel cost the past six months than ever before. The fifteen-foot furnace of Rodefers, together with the boilers, cost \$1,045, while the twelve-foot furnace of the bottle company cost about \$300. These figures are astonishing and are cheaper than even "free gas" in the gas regions, where the companies put down their own wells, each one of which costs about \$2,000 by the time the gas is piped to the factory. The slack gas furnace is a success in every way and there is scarcely a doubt that the fuel cost of factories in this valley will be reduced hereafter.

Notwithstanding the positive assertion of Mrs. Netz when she first identified Albert Holland as the fellow who was in her bedroom about 3 o'clock Saturday morning, she does not now want to swear to it and young Holland will probably be released this morning. He has been held since Saturday on suspicion.

The canning and preserving factories here have about all the tomatoes grown in this section engaged for this season. The presence of these factories serves to keep up the price of fruit and such things to consumers.

Herbert Buchanan, a clerk in Blum Bros.' store, went to Barnesville on a little vacation, then suddenly concluded to go west. He has a brother in Kenneboc, Maine, and he will probably land there.

Charles Rosser has an \$18,000 paving contract at Ulrichsville, and on Saturday that town offered the bonds for sale to pay for the improvement. In the absence of other bidders Rosser took the bonds at par.

There were two freight wrecks on the B. & O. just west of town—on Saturday morning, the other that night. Several cars and one engine were demolished and all trains delayed several hours.

Several of the window glass workers from the Indiana fields came home this season without full settlements. Tight money matters for a big stock of glass made the manufacturers a little short of cash.

The Novelty Stamping Company is running the works day and night now to finish up some contracts they have on hand. One force works all day, the other one-half the night.

Rev. S. C. Collier and wife are home from the seashore, and yesterday evening Mr. Collier entertained his congregation with a talk about the scenes and incidents of seaside life.

The wires for the electric railway have been strung in the lower part of this city. It begins to look as though they could get that line in operation inside of a month.

N. S. Hopkins, trainer and driver for John R. Gorby, of Caldwell, spent yesterday with Bellaire friends. He thinks he has a good one in Romancer.

Policemen Davis and Busch are contesting for a gold ring for the benefit of the running team that got stuck by a festival and ball recently.

The Standard boilers and bridge works are running over time they are so crowded with repairs and pressing new work.

The wife of Col. C. H. Poorman had one hand badly hurt by a window falling upon it. The fingers were all mashed.

Archie Jackley rode his bicycle through from Frankston, Ind., to his home here in four days.

John Davis and ex-Commissioner Berry got a \$20,000 contract for street paving at Berea, Ohio.

James F. Anderson and wife have been taking in the World's Fair for a week past.

Dr. C. E. Kurtz came in from Chicago to look after business interests here.

AYER'S PILLS promptly remove the causes of sick and nervous headaches. These Pills speedily correct irregularities of the stomach, liver and bowels, and are the mildest and most reliable cathartic in use. No one should be without them.

Boston Brown Bread at the Retail Department of the Wheeling Bakery to-day at popular prices.

FATAL neglect is a little short of suicide. The consequences of a neglected cold are too well known to need repeating. Dr. Wood's Norway Pine Syrup cures a cough promptly. Sold by all dealers on a guarantee of satisfaction.

## Is Life Worth Living?

That depends upon the Liver. If the Liver is inactive the whole system is out of order—the breath is bad, digestion poor, head dull or aching, energy and hopefulness gone, the spirit is depressed, a heavy weight exists after eating, with general despondency and the blues. The Liver is the housekeeper of the health; and a harmless, simple remedy that acts like Nature, does not constipate afterwards or require constant taking, does not interfere with business or pleasure during its use, makes Simmons Liver Regulator a medical perfection.

I have tested its virtues personally, and know that for Dyspepsia, Biliousness and Stomach Headache, it is the best medicine the world ever saw. Have tried forty other remedies before Simmons Liver Regulator, and none of them gave more than temporary relief, but the Regulator not only relieved but cured.

H. H. JONES, Macon, Ga.
